Nothing is more embarrassing than odors associated with incontinence. In fact, odor is one of the most worrisome concerns of incontinent people as reported by physicians, nursing staff and incontinence sufferers.

Existing odor control products use strong fragrances and/or harsh chemicals to mask odor and can often be detrimental or intolerable to people suffering from asthma, allergies or fragrance hypersensitivity.

MediSafe™ offers ostomy/incontinence sufferers and their caregivers a natural solution of incontinence odor control and cleansing. This 4-in-1 odor control and perineal cleanser is made from 100% natural ingredients that have been specifically formulated to eliminate odors associated with urine, feces, vomit, flatus, body odor, gangrene, ostomy/colostomy stoma and pouch, necrotic tissue, burns, tobacco smoke and other organic related odors.

MediSafe™ is the only all-natural, 4-in-1 product that gently cleanses, moisturizes and kills germs with the reassurance of effective, long lasting odor elimination.

- Helps maintain skin integrity
- 100% all-natural ingredients
- No rinsing required
- Non-toxic & biodegradable
- Eliminates odor—Not a masking or perfume agent
- Moisturizes and cleanses
- Safe for allergy & asthma sufferers
- Cost effective
- Bacteria free & kills germs
- Non-aerosol
- Non-flammable
- Contains no alcohol

How is it different?

- Dual action odor control & cleansing
- Eliminates odors/not masking them
- Prevents odor from returning
- Moisturizer
- All natural and safe ingredients
- A variety of applications
- Proven to work effectively

The elimination of odor is vital to the successful management of nursing homes, hospitals and private homes of people requiring convalescent care.

MediSafe™ provides superior cleansing and long lasting odor control for individuals receiving care at home and those able to leave the home to socialize.

How Does it work?

MediSafe™ uses proven micro nutrient technology to biologically eliminate the production of odor and prevent it from returning.

Testing?

MediSafe™ has been tested and approved for use in over 40 residential, nursing, rehab and chronic care facilities of companies which together have more than 250 locations.

Certification?

MSDS information is available upon request. Not WHMIS regulated. Certified non-toxic, non-hazardous and non-pathogenic.
